Seattle, WA, USA

TECH STACK

JavaScript / React / TypeScript

Node.js / Express / Backend

SQL (PostgreSQL / MySQL)

System Design & Architecture

TOOLS & STACK

React | Node.js | AWS | Docker | PostgreSQL | MongoDB | Git/GitHub | REST APIs | Webpack | Jest/Testing | CI/CD

LANGUAGES

English — Native
Spanish — Intermediate

CERTIFICATIONS

- ✓ AWS Solutions Architect
- ✓ Google Cloud Associate
- ✓ React Advanced Developer
- ✓ MongoDB Database Expert

PROFESSIONAL PROFILE

Full-stack software engineer with 6+ years of hands-on experience building scalable web applications using **JavaScript/TypeScript** and **Node.js**. Specialized in modern React architectures for responsive, user-centric frontend experiences and server-side development with Express.js and cloud-based solutions.

Proficient in designing and implementing microservices, RESTful APIs, and database solutions leveraging PostgreSQL and NoSQL technologies. Experienced with cloud infrastructure on AWS, containerization with Docker, and CI/CD automation to ensure reliable deployments.

My approach emphasizes clean code principles, comprehensive testing strategies using Jest and integration tests, and collaborative development practices following agile methodologies.

FEATURED PROJECTS

EcoTrack — Sustainability Platform

Personal Project / 2024–2025

React | Node.js | PostgreSQL

- Full-stack web application for tracking carbon footprint and environmental impact. Built with React frontend and Node.js/Express backend with real-time data visualization.
- Implemented responsive UI with Tailwind CSS, JWT authentication, and integrated third-party APIs for carbon calculation algorithms.

github.com/example/ecotrack

TaskFlow — Collaborative Project Management Tool

Tech Innovation Labs / 2023 – 2024

React | TypeScript | MongoDB

- Developed full-featured project management SaaS application with real-time collaboration capabilities using WebSockets.
- Designed scalable backend API with MongoDB, implemented complex filtering and search functionality, and created intuitive team dashboard components.

github.com/example/taskflow

DataViz Dashboard — Analytics Frontend Framework

Open Source Contribution / 2023

React | D3.js | TypeScript

- Created reusable React component library for interactive data visualization with 20+ chart types and real-time data binding.
- Optimized rendering performance for large datasets and published as npm package with comprehensive documentation and examples.

github.com/example/dataviz-dashboard

WORK EXPERIENCE

Senior Full-Stack Software Engineer

Cloudwave Technologies Inc. / 2020–Present

- Led development of customer-facing web platform serving 500K+ monthly active users, architecting frontend with React and backend services with Node.js.
- Established best practices for code quality, testing standards, and CI/CD pipelines that reduced deployment time by 60%.

ACADEMIC BACKGROUND

Bachelor of Science in Computer Science 2019
University of Washington, Seattle

Cloud, Frontend and Modern Web Technologies

2024	**AWS Solutions Architect Associate Certification**	Amazon Web Services
2024	**Advanced React and Performance Optimization**	Udemy / React Academy
2023	**Node.js and Express.js Mastery**	Coursera / IBM
2023	**Google Cloud Associate Cloud Engineer**	Google Cloud
2022	**TypeScript Advanced Programming Concepts**	Frontend Masters

Database Design and API Development

2024	**PostgreSQL Advanced: Performance Tuning**	Pluralsight
2024	**MongoDB Advanced: Indexes and Aggregations**	MongoDB University
2023	**RESTful API Design and Best Practices**	Udemy
2023	**GraphQL Fundamentals and Apollo Client**	Apollo University
2022	**API Security and Authentication Standards**	OWASP / Coursera

Professional Development and Leadership

2023	**Agile Project Management for Development Teams**	PMI
2022	**Technical Leadership and Mentoring**	O'Reilly Media

Advanced Professional Training

2019	**Full Stack Web Development Bootcamp Certification**	General Assembly
2020	**Advanced JavaScript: ES6+ and Functional Programming**	Egghead.io
2021	**Web Application Security Best Practices**	SANS Cyber Aces
